Dear Alwyn Davies,

We look forward to reporting the progress of this sprint. We have captured the following points to update you on how things are going and if we have encountered any hurdles in our execution.

This recent sprint focused on sample dataset and the coming sprint will focus on Tools and coding and development environment setup.

Outcome(s) of this Sprint:

- Upskill on related field
- Dataset and format of cancer patient created

Activities this Sprint:

- Research about DLT
- Research on Patient health record formats
- Upskill yourself
- Create a realistic synthetic dataset for prototype
- Select Landing Page and development platform.

Activities that will occur next Sprint:

- Setup Development Environment and start coding.
- Learn Hyperledger and Design block chain database for Application.
- Create landing page and Rest API or tool to collect data.
- Create web app for application

Proposed amendments to Scope:

- Web API and WEB app for user interference

Please let us know if you have any questions.

Sincerely,
Team MY Context Squad 2
